

FSP CASE STUDY

A STRATEGIC SITUATIONAL OVERVIEW
OF AN FSP ACHIEVEMENT

MID-SIZE RARE DISEASE BIOPHARMA IN NEED OF SCALABLE RESOURCES

Orbis Clinical's FSP solution, OC Link, provided a supplemental workforce to meet workload needs.

SPONSOR'S CHALLENGE

Mid-size rare disease biopharma did not have permanent FTEs to support the current workload

Difficulty securing quality talent internally with current staffing providers

SOLUTIONS DEPLOYED

Orbis Clinical offered FSP support within multiple roles, evolving to a more expanded partnership as Orbis identified the best resources with regard to expertise and culture fit

Orbis was chosen as the Sponsor's sole FSP provider for Data Management and Global Clinical Monitoring work in addition to providing FSP resources in other various functional areas

Transfer from fixed FSP pricing to unit-based deliverable model in support of Sponsor's Data Management team

RESULTS ACHIEVED

- Orbis provided over 25 FSP team members
- Expanded Data Management and Clinical teams across the US
- Provided inspection readiness support
- Clinical Monitoring training services

Find out how Orbis Clinical's FSP Solution,
OC Link, can help you!
